

DIN Deadlock Fitter's Template

This template provides reference dimensions for a standard DIN mortice deadlock.
Use only with the door manufacturer's approved lock and intumescent kit.
Always verify exact sizes against the product being fitted.

Dimension	Typical Value	Notes
Case Height	235 mm	DIN standard
Case Depth	85 mm	Varies by backset
Backset	55 mm	Centre of cylinder to forend
Forend Size	235 x 24 mm	Rectangular faceplate
Bolt Throw	20 mm	Approximate

Intumescent placement reminders:

- Around the lockcase body as specified.
- Behind the forend plate.
- In the keep (strike plate) housing.
- Do not substitute or omit materials.
- Maintain door edge strength; do not overcut the mortice.

*This template is for guidance only. Always follow the lock and door manufacturer's instructions and fire test evidence.
Incorrect preparation may invalidate certification.*
